

Training Resources Guide - Others

Organization	Description	URL	Core Certification Keywords	Material Type(s)	Are Resources Free of Charge?	Is Training Ongoing or a One-off?
Alliance for Permanent Access	Eight online 'courses' about digital preservation, distinguishing several professional target groups.	http://learning.alliancepermanentaccess.org/index.php?id=15	Mission/Scope, Licenses, Continuity of access, Organizational infrastructure, Data integrity and authenticity, Appraisal, Documented storage procedures, Preservation plan, Workflows, Data discovery and identification, Data reuse, Security.	Presentation recordings.	Yes (account required)	The last presentation was recorded in 2015 and there appears to have been on updates since then.
Association of European Research Libraries	11 case studies on RDM published in 2014.	http://libereurope.eu/committee/scholarly-research/research-data-management-case-studies/	Mission/Scope, Licenses, Confidentiality/ethics, Organizational infrastructure, Expert guidance, Preservation plan, Data quality, Data discovery and identification, Data reuse, Technical infrastructure, Security.	Each case study is available as a PDF document, and links to external resources are pointed to therein.	Yes.	One-off exercise.
Digital Curation Centre	A summary of Research Data Management training materials from various organizations.	http://www.dcc.ac.uk/training/materials-for-trainers	Mission/Scope, Licenses, Continuity of access, Confidentiality/ethics, Organizational infrastructure, Expert guidance, Data integrity and authenticity, Appraisal, Documented storage procedures, Preservation plan, Data quality, Workflows, Data discovery and identification, Data reuse, Technical infrastructure, Security.	PDFs of modules and web-based supporting materials comprising DCC's Digital Curation 101 course, as well as links to external resources/tools. There are also links to online and face-to-face education and training courses.	Yes, although some links may be to non-free content. Especially, many courses require a fee.	The information appears to be periodically updated, although upcoming course information is outdated.
EDINA/University of Edinburgh	Do It Yourself Research Data Management Training Kit for Librarians (2014).	http://datalib.edina.ac.uk/mantra/libtraining.html	Licenses, Confidentiality/ethics, Data discovery and identification, Data reuse, Security.	Online course, plus: Microsoft Office/PDF documents containing instructions and exercises, presentation slides and podcasts, and links to required external content.	Yes.	One-off exercise.

Training Resources Guide - Others

Organization	Description	URL	Core Certification Keywords	Material Type(s)	Are Resources Free of Charge?	Is Training Ongoing or a One-off?
Facilitate Open Science Training for European Research Project	Materials from different sources with a focus on promoting awareness of Open Science.	https://www.fosteropenscience.eu/foster-taxonomy/research-data-management	Licenses, Confidentiality/ethics, Preservation plan, Data discovery and identification, Data reuse.	Collection of links to internal/external resources (presentation videos and slides), events, and courses in several European languages.	Yes, although some links may be to non-free content.	The lists of resources and courses do not appear to be updated. However, the events lists is current.
International Association for Social Science Information Services & Technology	Resources page on data management and curation	http://www.iassistdata.org/resources/category/data-management-and-curation	Mission/Scope, Licenses, Continuity of access, Confidentiality/ethics, Organizational infrastructure, Expert guidance, Data integrity and authenticity, Appraisal, Documented storage procedures, Preservation plan, Data quality, Workflows, Data discovery and identification, Data reuse, Technical infrastructure, Security.	Collection of links to external tools/resources.	Yes, although some links may be to non-free content.	The list is kept up-to-date.
Knowledge Exchange	Report on the project initiated at the end of 2015 to compare approaches in Research Data Management training within the partnership's member countries.	http://knowledge-exchange.info/event/rdm-training	Confidentiality/ethics, Preservation plan, Data discovery and identification, Data reuse, Security.	Not training per se, but two PDF reports for download that contain links to many training resources within Finland, France, Germany, Netherland, and UK (as well as international).	Yes, although some links may be to non-free content.	Appears to be a one-off exercise.
Lamar Soutter Library	The New England Collaborative Data Management Curriculum is an instructional tool for teaching data management best practices to students and researchers in the health sciences, sciences, and engineering disciplines.	http://library.umassmed.edu/necdmc/index	Licenses, Confidentiality/ethics, Preservation plan, Data discovery and identification, Data reuse, Security.	PDF/Word documents and presentation slides containing lesson plans, teaching materials, and links to online reading materials.	Yes.	Appears to be a one-off exercise.
PennState University Libraries	Data Management Toolkit for researchers.	http://guides.libraries.psu.edu/dmptoolkit	Licenses, Confidentiality/ethics, Preservation plan, Data discovery and identification, Data reuse.	Web-based information, videos, links to external PDFs/resources/tools.	Yes.	Content is being updated.

Training Resources Guide - Others

Organization	Description	URL	Core Certification Keywords	Material Type(s)	Are Resources Free of Charge?	Is Training Ongoing or a One-off?
UK Data Service	Data management guidance for researchers, data creators, data managers, and data curators on best strategies and methods for creating, preparing, and storing shareable datasets.	http://ukdataservice.ac.uk/manage-data.aspx	Licenses, Confidentiality/ethics, Organizational infrastructure, Expert guidance, Data integrity and authenticity, Appraisal, Documented storage procedures, Preservation plan, Data quality, Data discovery and identification, Data reuse, Security.	Web-based information and examples, videos, links to external resources/tools, PDFs of presentations, handbook, and online and face-to-face courses and conferences.	Mostly, yes. The handbook and some courses/conferences require a fee.	Online content is updated, and courses and conferences on ongoing.
University of British Columbia Library	Four sections—Learn, Plan, Share, and Find—guide users to Research Data Management advice and to systems solutions.	http://researchdata.library.ubc.ca/	Licenses, Documented storage procedures, Preservation plan, Data discovery and identification, Data reuse, Security.	Mainly links to other online resources.	Yes.	Does not appear to be updated.
	The Learn section includes a quick, standalene DataGuide developed to get people started on Research Data Management.	http://researchdata.library.ubc.ca/files/2016/07/RDM_DataGuide_V04.1_20160712.pdf				
University of North Carolina at Chapel Hill/University of Edinburgh	Massive open online course on Research Data Management.	https://www.coursera.org/learn/data-management	Mission/Scope, Licenses, Confidentiality/ethics, Documented storage procedures, Preservation plan, Data discovery and identification, Data reuse, Security.	Videos and reading materials.	Enrol in the course – No. Self-study – Yes (login required & not all materials accessible).	Course is ongoing, but possibly not updated.
